PATENT ELASTIC FIRE & WATER-PROOF CEMENT ROOFING.

THE undersigned are prepared to introduce into use in Tennessee W. E. CHILDS & ON S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOFING and ask the aftention of Architects, Builders, Railroad Comanies, and the public to examine its superiority over other ARCHITECTS AND BUILDERS should not fall to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the atmosphere, and will neither evaporate, crack nor rot; and, as to its duability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good heathing, and shingles, tar and gravel, tin, sine, croper, or iron roofs.

old shindles, ter and gravel, tin, sinc, emper, or iron roofs
—it making no difference how steep or flat they may be—
for seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it will give better satisfaction. It will also be found to be the best thir g ever invented to cover or mend old leaks tin, tar and gravel roofs, or around chingeys, scuttles, doemar windows, and gutters, where the tin is rust d through. This Cement can be put on to last as long as stone, and form a perfect adlesion to any object to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two d flars and fifty cents per hundred square feet, which is cheaper and much bet-ter than paint. This Roofing will be found to be the best theng for covering large Roofs where they are exposed to fir —such as Sieam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Dipots, Station Houses, Steamboat Decks, and, in fact, every kind of Roof where there is an external posure from fire. As the Hoof is perfect, without a joint in it, it presents no chance for fire to communicate, and any light sub-tance will born out without igniting.

From J. B. Bennett, General Agent of Eina Ins. Co. for the Southern and Western States.

Southern and Western States.

(ISCINNAIT, Jan. 7, 1857.

Having made considerable inquiry as to the merits of the "Patent Klastic Cement Footing," introduced into this city by Childs & Co., I find it to be highly recommended in this city by many excellent judges; that it is meeting with very ready and general introduction, that its superfority over the tar composition Roofing is decided and freely admitted; and finally, I expect to adopt it for my next roof, which will be next summer—having intended to use tie, but will try the virtues of the "Fatent Elastic Roufing" as a sub-Yours, truly,

Cuscissatt, Jan. 7, 1857. Dean Six:-- In answer to your fendiry, in reference to our opinion as to the practical use of your keef in the cover-ing of care, we may say that from our observation, we entertain a very favorable on e, -so much so, that we intend testing it the oughly on rook of buildings, cars, &c; after to its utility. Yours, truly, E. L. PPSNCOTT,

#### apr28-12minsdaW PIANOS & MELODEONS.

G. W. KIBBEE W HO has been for many years located in Tennessee as a Tuner and Repairer of Pianos, would respectfully call the attention of the musical public to the fact, that he visited New York last year for the purpose of making arrangements with the best Piano Forte makers to sell their Instrunents. After spending several weeks in that great metropolis, visiting the different manufacturers of note, he came to the conclusion—and who might be judge in this case if a Tuner of twelve hears is not—that the Planes of of Lighte, Newton & Bradbury's should be preferred to all others. He accordingly made an agreement with them, whereby he is enabled to furnish Planos at retail cost in New York, freight and charges added, so that every one who buys of him may know that he is not paying more for his article than he would be charged by the manufacturers themselves if he were to visit them in person. This House s making twenty Piscos per week, a much greater number than is made he say other in the United States, and for purity and volume of tone and fineness of finish, both inde and out, the proof is that they stand wholly unrive led. These Pianes were awarded the first premium by the ries of the World's Fuir and the Fair of the American nstitute in 1853. Among the many Musicians and Amateurs who have from time to time examined these Instru-ments, testified to their superfority, and recommended them to their friends, are Lowell. Mass's and Thos Hastinus, of world-wide calebrity, H. C. Time, President of the Philharmonic Society, N. T., Thaone as FL First, conductor of the Philharmonic Society, N. Y., Grance F. Root, jurue in the Pair of the American Institute, in 1856. J. Leati, U. C.

Gao F Eurstow, of New York, the distinguished co made for their use. He gave the preference to Lighte, Newton & Bradbury's "large scale" over all others. Grand's apt excepted, and purchased one for the use of the Society.

But Mr. Kinner deems it unnecessary to multiply words to the people of Middle Tennessee. The fact, that he has been for many years a successful Tuner among them, and has met with, and Tuned and Rypaired Planos of every make, should inspire confidence in his judgment; and the fact that he regularly visits them twice a year would show that it is more to his interest to cell them a good Plance

sold by him.

Mr. Krasux also visited the well known Meledgen Establishment of Carbart Needham & Co., No. 97, East 28d St., New York, and made an arrangement with them to furnish Melodeons, so that he can sell them at their New York retail prices , freight added. These Instruments have become

"Charmed by concord of sweet sounds." give written a rea too by the ambenty or Lights, New-ton & Brasburry on his first vist.

All communications from the country on the subject of Planes or Meinscons or of Tuning and hopairing will be promptly attended to. Families residing in the city can leave orders at my residence, apposite Gott Fellow's Hall, or address through the Post-Office, G. W. Kilbkin.
